

Beat Box Rhythm Cards

Directions:

- 1.) Print the cards out on good quality cardstock-
- 2.) Cut out each card
- 3.) Laminate the cards, then trim around the edges leaving a tiny margin of laminate (so that the laminate will not peel. If it does peel, fix with clear tape.
- 4.) Using superglue, affix a small magnet to the back of each card. I use ½ inch adhesive squares available at https://craftsuppliesforless.com/craftsupplies_accessories.html
- 5.) To ensure the magnet stays, carefully go OVER the magnet with clear tape. This will not weaken the hold of the magnet, but will make sure the magnet stays on the card.
- 6.) Store as a kit in a ziplock baggie. In each kit there should be:
 - a. 8 quarter notes
 - b. 8 Eighth note pairs
 - c. 4 half notes
 - d. 2 whole notes
- 7.) Use with metal cookie trays to compose rhythms!
